

# THE SOUTHWEST MN CHAPTER OF THE ICC PRESENTS

## A SEMINAR ON THE PRACTICAL USE OF THE MN EXISTING BUILDING CODE (GREB)

This course will address portions of the Guidelines for the Rehabilitation of Existing Buildings code including:

- ~Scoping provisions and applicability of the document
- ~Definitions specific to the conservation code
- ~Alterations to existing buildings
  - Heights and areas -Means of egress -Stairways, guards and handrails -Corridors -Fire Suppression systems
- ~Changes of occupancy
  - Partial and entire building -Hazard categories -Fire resistive construction -Structural elements

Case studies and practical examples will be used extensively to give direction as to how the conservation code and referenced codes are applied to existing buildings.

Instructor: Greg Karow, Code Educational Opportunities
